Condensate Spill Reported In Williams County

BISMARCK, N.D. – The North Dakota Department of Health (NDDoH) has been notified of a condensate spill at a natural gas gathering line 10 miles south of Tioga in Williams County. Hess Tioga Gas Plant LLC is the owner of the pipeline.

Approximately 1 barrel of condensate was released. Condensate consists of heavier hydrocarbons present in natural gas that condense as liquids in a pipeline. The spill impacted an intermittent drainage of Dry Fork Creek. NDDoH staff and an environmental contractor have been on location.

For more information, contact Karl Rockeman, North Dakota Department of Health, at 701.328.5225.
